Announcements

Tia encouraged the committee to take a look at the Ohio Joint Study Committee on Drug Use Prevention Education published in February 2017.

Kathy shared that OhioMHAS had filed their Cure's Act grant application. She also shared that OPEC would be June 26-28 this year.

Stacey shared that she and Amanda had worked to create an RA webinar as part of the SPF-PFS Regional Learning Collaborative. The webinar is available at pfs.ohio.gov. They will start working on the other certification levels now that the new rules had been finalized. She also shared that there would be an all-day ethics training the day after the ADAPAO meeting in May.

Bobbie shared that her organization was offering a new Lunchtime LIVE (Learning Interactions with Valued Experts) webinar series that can be accessed at www.osatq.org starting this month. The webinars will also be recorded and available for later access.

Director Updates

Amanda informed the committee that the Governor's budget proposal includes language which would consolidate the Board along with Psych and CSWMFT into a new Behavioral Health Professionals Board. The Budget bill is HB49 and if passed would consolidate the boards in Jan of 2018. She also shared that she had finalized all the prevention rule changes and that these would take effect on 3/24/17.

Domain Definitions Recommendations

The committee spent time brainstorming what they thought were the core areas of prevention knowledge that certificate holders needed to stay current in. They then reviewed a draft prepared by Amanda, Bobbie and Jim of the new definition of Domain VI. Amanda will incorporate brainstormed ideas into this definition.

| Follow up items: | Person responsible | Target date |
|------------------------------|--------------------|-------------|
| 1. Revise Domain Definitions | Amanda | 3/14/17 |

Scope of Practice Review and Next Steps

The committee began reviewing the drafted definitions to go along with their draft scope document. After beginning, Kathy identified several OhioMHAS documents which she believed would cover the information the committee was looking for. She will provide the information to Amanda who will incorporate and share at the next meeting.

The committee also agreed to think about how it would define the terms “assist, perform and under supervision” and come prepared to discuss ideas at the next meeting.

Once these two items are accomplished the committee can then begin to modify the ideal scope into a more realistic/achievable scope.
