Review and approval of minutes

The committee approved the minutes for the March 17, 2017 meeting

Announcements

None

Agenda Updates

David requested to add the CDCA survey results

Andrew reported the clinical supervision examples were sent to Amanda

### Presentations

John Lisy- NAADAC- Secretary- Did a presentation on NAADAC and the role they play for Licensees' and the AoD community. He stated that they strive to represent addiction professionals and have over 10,000 members. He discussed how they do Professional Development- education and training- e.g. conferences, webinars- they reach 100K people via training. NAADAC has Workforce Development programs. Another essential role they perform is Public engagement- communicating with congress, Hill Day, etc. They work with MCO's of managed care companies, SAMSHA, NIDA, Dept. of Labor, etc. They also do Professional Services- i.e. educational products, national training, and national certification board. The national NAADAC conference is in October in Denver.

John shared about OAADAC advocacy in Action- and their role in getting licensure for chemical dependency counselors started in Ohio. They met from 1999 to 2003 to get licensure. The law was finally passed and signed in 2003.

He reported that NAADAC is trying to enhance their Workforce Development by trying to join with OhioMAS in developing workforce development programs for licensees. They have scholarships available for state university students obtaining a master's degree.

John and the Committee members discussed how we can work together. John suggested through education and advocacy. He stated that we need a unified voice and to jointly pull together NAADAC/OAADAC, OCDP board and other relevant organizations – bring people to the table- maybe the chemical dependency professional board can co-host. John suggested we talk to Columbus State, as well as pull 3 or 4 other organizations together to come to the table.

David reported that he will check into what the OCDP board can and cannot do as far as working together with NAADAC/OAADAC.

**Director Updates-** filing the rule a new process for filing with CSI and JCARR

### **Clinical Supervision Discussion**

- CDCA Education Survey Results- David reviewed the results with the committee. He shared that the stakeholders desire a more qualified professional. There were comments about ethics, group counseling and the type of experience a CDCA should get. Ethics- massive disparity on who viewed the value of ethics. 17.86 % CDCA don't need ethics. 70% supervisors stated CDCA need ethics. Felt training then ethics would help with the effectiveness of their jobs. 72% felt they needed counseling strategies to be more effective at their job. Education- 40 hours is sufficient- 66%- below 40 too low. Some wanted more than 40 hours. Andrew stated that there would be more cost for more education and perhaps discounts could be offered to trainees. 49% felt online and distance learning should not be limited. Should a college component be mandatory 43% said no and 42% yes. **For phase 2 -525 felt no college mandatory. 55% should be a phase1 certificate with education component.**

**Experience- more practical experience- CDCA's not able to hit the ground running- how to operate effective- need training in group, more supervision. How to increase professionalism. Should we increase number of hours. David- develop exam/structure to help CDCA develop ethics a little more. They need to have hands on supervision working with supervisor. Work with the hours to slide into getting higher credentialing.**

- Rule filing- ERF electronic rule filing
- Board specific ethic training-

### **ICRC rule changes-**

Training next week. David needs the rules changes-Robb forwarded email to David while in the meeting.

### **Work plan**

- BCI background check- rule change- David will start working on this. We need to ask if they had prior convictions, and misdemeanors. Robb commented on the questions asked by the Counselor, Social Work, Marriage and Family Board. David will research and bring potential questions we could ask.
- Next steps for the work plan- the committee is on target; no additions at this time.

### **Closing Activities**

- Next agenda- review the current process for convictions
- Adjourned: 2:30pm

Next Meeting 9/15/17 at 1:00pm

Next meeting 9/15/17
