

## 2015 Recognized Clock Hour (RCH) Program Approval Report

The OCDP Board credentials both chemical dependency counselors and prevention specialists. Training appropriate for chemical dependency counselors may not always be appropriate for the prevention specialists and visa versa. Therefore, the Board assigns each program with a letter designating approval for chemical dependency specific (C), prevention specific (P), clinical supervision (S), diagnostic (D) and field related (R). The letter designation is place behind the PID# (program identification number). For example, 03-123 CSP.

The following report lists all educational events currently approved by the board office for RCHs. The report is updated at least once a month to reflect newly approved events. Approved homestudy and internet courses are also listed in this report.

If you have any questions regarding the approval of educational events, feel free to contact the Board at (614) 387-1110 or [credentialing@ocdp.state.oh.us](mailto:credentialing@ocdp.state.oh.us).
