PRACTICAL EXPERIENCE IN THE PREVENTION DOMAINS

Name: _____

This form can be used by supervisors, eligible by scope to supervise prevention certificate holders, to document the 120 hours of practical experience in the Prevention Domains to be completed during a potential applicant's prevention work experience. This form will NOT be provided to the OCDP Board and is for the supervisor only to reference when providing documentation of hours online for applicants.

This is **actual experience** in each performance/skill building domain. If an applicant cannot obtain any of the required practical experience at his/her employment, arrangements may need to be made to accomplish this requirement (i.e., the applicant does not perform community organization, therefore must make arrangements to perform this function for a minimum of 10 hours).

The applicant must complete the minimum hours (indicated below) in each performance domain. These total 60 hours. The remaining 60 hours may be spent in any domains as determined necessary by the supervisor and potential applicant.

	MINIMUM HOURS REQUIRED	HOURS COMPLETED/DATES
Planning and Evaluation	10 hours	
Prevention Education & Service Delivery	10 hours	
Communication	10 hours	
Community Organization	10 hours	
Public Policy & Environmental Change	10 hours	
Professional Growth & Responsibility	10 hours
